

Policy Title

Child Protection and Safety Policy

Purpose

Monash College is dedicated to promoting and protecting the interests and safety of children.

This policy has been developed to demonstrate Monash College's commitment and assurance that all employees will work towards creating child safe environments and includes the mandatory reporting of information about child abuse.

The Child Protection and Safety Policy will guide Monash College staff and volunteers on how to behave with children in the organisation and to prevent child abuse at Monash College.

Scope

The [Victorian Child Safe Standards](#) apply to all Monash College individuals (staff, students, contractors, volunteers and any other person representing Monash College) whose positions interact with or who are in the company of children.

Working with children means being engaged in an activity that usually involves direct physical contact or face to face oral communications as a normal part of the activity that is not directly supervised by another person (High Child Interactive Work).

All Monash College individuals must abide by the Monash College Staff Personal and Professional Code of Conduct. Individuals whose positions are assessed as High Child Interactive Work will also be required to sign the [Employee Interaction with Students Code of Conduct](#) which specify the standards of conduct required when working with children.

Policy Statement

This policy ensures that Monash College has:

1. Strategies to embed an organisational culture of child safety, including through effective leadership arrangements
2. A child safe policy or statement of commitment to child safety
3. A code of conduct that establishes clear expectations for appropriate behaviour with children
4. Screening, supervision, training and other human resources practices that reduce the risk of child abuse by new and existing personnel
5. Processes for responding to and reporting suspected child abuse
6. Strategies to identify and reduce or remove risks of child abuse
7. Strategies to promote the participation and empowerment of children.

Training and supervision

The College's organisational culture aims for all staff and volunteers (in addition to parents/carers and children) to feel confident and comfortable in discussing any allegations of child abuse or child safety concerns. The College trains its staff and volunteers to identify, assess, and minimise risks of child abuse and to detect potential signs of child abuse.

Recruitment

Monash College takes all reasonable steps to employ skilled people to work with children.

All people engaged in child-related work, including volunteers, are required to hold a Working with Children Check and to provide evidence of this Check as outlined in the [Monash College Working with Children Check Policy](#). Refer to the [Working with Children Check](#) website for further information.

Records Management

The Child Protection and Safety Policy is a Level 1 Governance Policy. The latest approved version of the Child Protection and Safety Policy will be stored in the Policy Bank on the Monash College intranet.

The policy owner will maintain a record of issues relevant to the Child Protection and Safety Policy for consideration at the time of review.

Definitions

Child	A child is any person aged from birth to eighteen years (UNICEF).
Child Abuse	For the purposes of this policy, abuse constitutes any act committed against a child involving: <ul style="list-style-type: none"> • physical violence • sexual offences • serious emotional or psychological abuse serious neglect.
Child Safety	In the context of the child safe standards, child safety means measure to protect children from abuse.
Child safe organisation	In the context of the child safe standards, a child safe organisation is one that meets the child safe standards by proactively taking measures to protect children from abuse.
High Child Interactive Work	Working with children means being engaged in an activity that usually involves direct physical contact or face to face oral communications as a normal part of the activity that is not directly supervised by another person.
Moderate Child Interactive Work	The position activities involve or may involve occasional contact with children that is incidental to the work. This means working on an activity or in a position that may involve contact with children on an ad-hoc basis and is directly supervised by another person.
Low Child Interactive Work	The position activities do not involve any contact with children or are insignificant, minor and unlikely.
